THE MARMARA ESMA SULTAN

An unforgettable wedding at Esma Sultan's historical atmosphere...

Perfectly nestled along the shores of the lovely Bosphorus that unites the Asian and European continents, sits the glorious 19th century mansion that was given to Esma Sultan as a wedding present from her father, one of the Ottoman sultans, Abdülaziz.

Today, the mansion proudly stands tall as one of Istanbul's most precious cultural heritages, bringing a unique vibrancy and unforgettable quality to each wedding, organisation, event and meetings with its chic and stylish atmosphere -as well as its old and new perception at the same time-, first-rate cuisine and professional service team for both international and local guests.

The historic building's outer façade has been carefully restored to reflect its antique charm, while a sturdy, modern glass and iron construction supports it from the inside. The mansion's first floor can host 300 person cocktail receptions or 180 person sit down dinners. The second floor, on the other hand, holds 600 for cocktail receptions and 336 for sit down dinners.

The Marmara Esma Sultan is a wildly popular summer organisations venue. This is attributed to its beautiful garden, its location on the shores of the Bosphorus, and its accessibility by boat from its private dock. The 4-sided glass interior welcomes views of the surrounding Bosphorus for the perfect winter events. The venue hosts only one event each day. These are only a few key reasons to consider The Marmara Esma Sultan for destination weddings with the high level of exclusivity feeling.

The Marmara's award-winning chefs prepare and serve The Marmara Esma Sultan's tailor made menus, designed to suit the theme of each international or local unique event.

Offering unparalleled service and flawless attention to details, you are ensured a productive and worry-free experience during your organization with us.
